# MANAGEMENT

## impress your guests while ensuring business
## EFFICIENCY

**Booking in at a B&B does not have to be challenging. With Access Portal's powerful and user friendly visitor management module feature you can ensure that your guests will be made to feel like VIP's while appreciating the secure environment you have established.**

**SOME BENEFITS OF ACCESS PORTAL THAT MAY BE IMPLEMENTED**

- Facilitate arrivals around the clock by pre-booking guests and obtaining a unique personal access code
- Pre-determine and control the length of stay
- Know when guests arrive and when they depart
- Manage access of your guests as well as their visitors
- Facilitate the management of regular guests
- Manage contractors such as garden services - know where and when they were on premises
- Have records of staff hours worked

- Grow the system with your needs with additional modules such as visual door control, alarms and energy management can be added as and when required
- Biometric options also available
- Access to your system via cellphone or tablet
