

# financial INSTITUTIONS

asset and data protection is critical in the financial  
**SECTOR**

**Access Portal provides this protection, with the necessary flexibility and scalability to deliver to your exact needs.**

## SOME BENEFITS OF ACCESS PORTAL THAT MAY BE IMPLEMENTED

- Manage the access rights for thousands of personnel, with different levels of authorisation to different areas at different times
- Securely manage visitors and account for their whereabouts on site
- Superior integration with other systems, such as intruder alarms, CCTV and turnstiles
- Manage numerous branches and offices, from a central management system
- Range of biometric locking devices for doors, servers, cabinets and other storage facilities
- 'Lock down' feature in case of a threat
- Quick and easy audit reports, accessible 24 hours a day
- Ability to monitor sites locally and remotely, through any internet enabled device (smartphone, tablet and computer)
