

residential HOMEOWNERS

integrated access control to keep you and your family
SAFE

Access control solutions aren't just for business. Access Portal can provide additional security and peace of mind at home too. Whether a gated community, apartment block or freestanding home, Access Portal can help.

SOME BENEFITS OF ACCESS PORTAL THAT MAY BE IMPLEMENTED

- Remotely enforce who can enter the property, especially useful for rental units
- Keep keys secure by enabling staff access with a pin or finger print reader
- Create time restricted zones to allow pool or garden services' access to certain areas, at certain times
- Keep track of employee hours
- Integrate the system with your intrusion alarm to remotely activate or deactivate areas, or to automate your interior and exterior lighting
- Pre-authorisation of visitors
- Ability to control lights, irrigation systems and alarms
- Integration to CCTV, intrusion and fence line control for enhanced security
- Ability to rapidly remove lost or stolen transmitters and tags from the system
